An introduction to online games

An introduction to online games

An online game is a video game that is either partially or primarily played through the Internet or any other computer network available. There's a variety of online games available to play, some are single player games whilst others are multiplayer and can be played with friends and family remotely.

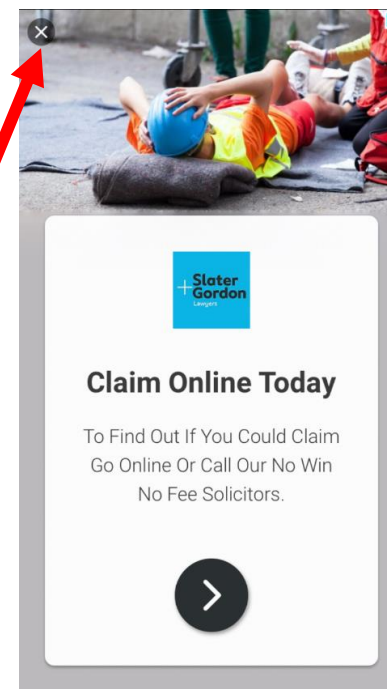

- **How can I play an online game?** Firstly, you will need to download an app to allow you to play an online game (please see previous 'How to guides' for information on downloading apps) as it will depend on the make of your phone whether you use the App Store (iPhones) or Google Play Store (Android).

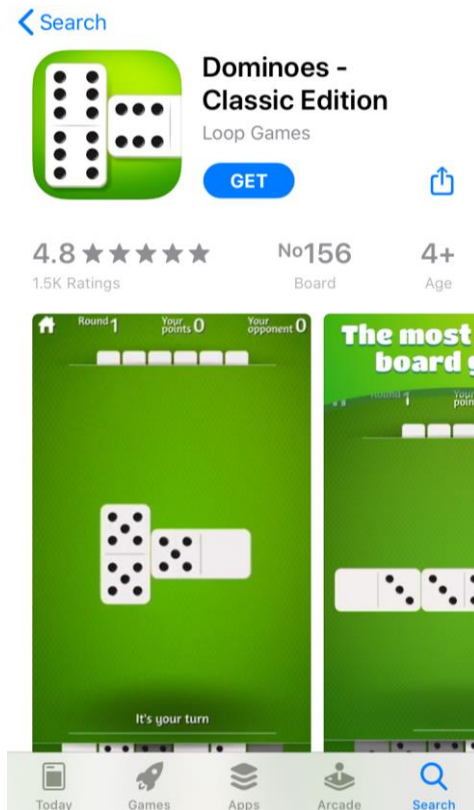

Play Store

With 1,000s of online games available we have compiled a list of some you might enjoy.

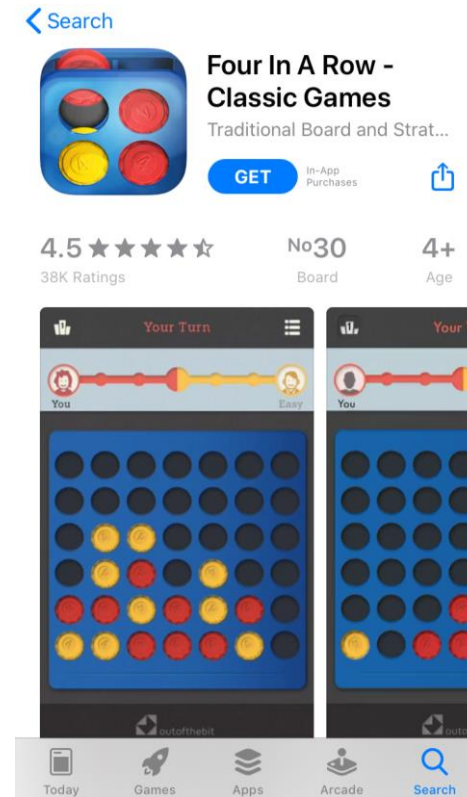

Please note whilst the games are free to download, some have "in-app purchasing" and adverts which will automatically play in-between games. Either wait 30 seconds for the advert to finish or select the "X" at the top of the screen.

An introduction to online games

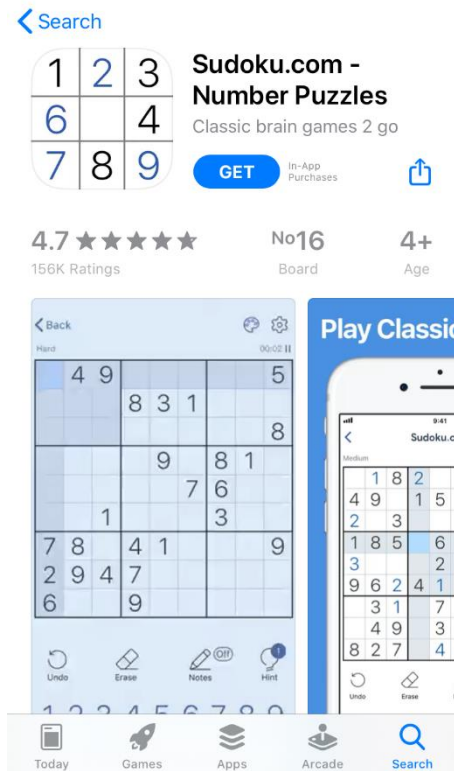

Dominoes - select “Draw or Block Dominoes” to start your game.

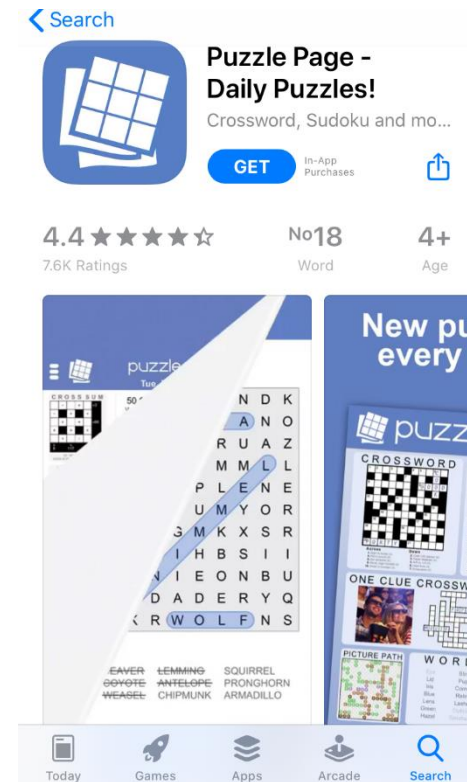

Four in a Row – Compete against the computer to get four counters in a row.

An introduction to online games

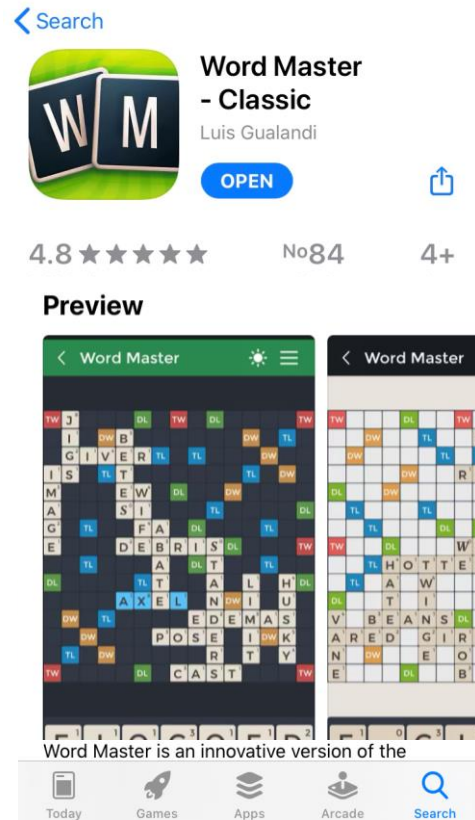

Sudoku.com – select level of difficulty and play a variety of Sudoku puzzles for free.

Puzzle page – Choose from word searches, crosswords or sudoku. Collect coins and tokens to unlock more puzzles.

An introduction to online games

Word Master – Select “New Game” and “Classic” to play against the computer.

Solitaire – Tap on the cards to move them to the desired space. Select “Game” to start a new game or replay.

An introduction to online games

Play snake – visit, <https://playsnake.org/> on your computer or mobile phone.
Computer – use the arrow keys on your keyboard to direct your “snake” to “eat” the dot on the screen.

Mobile phone – tap the screen to direct your “snake”.

Be careful not to touch the edges otherwise it's game over!
